

BMS Pediatric Proxy 8-17 Interview Form I: Research Staff Instructions

Instructions: This form is designed to aid in the interview process. If you are handing the form to the participant for them to fill out, use the mail version of this form instead.

Instructions to the interviewer appear throughout the survey in italics, and scripts to read aloud to the participants appear using quotation marks. The scripts to read aloud are also boxed and shaded in light gray. Use these scripts as suggestions for how to move through the survey while establishing rapport with the participant.

Missing codes appear throughout this interview in small boxes. If a participant doesn't want to answer any item or doesn't know the answer, circle "88" (Declined to Answer/Refused) or "99" (Unknown) in that item's corresponding missing code box. Some items have missing codes built into their response options and therefore don't have those code boxes.

Introduction script (Replace this script with your personalized center introduction script if applicable or modify as needed to facilitate the flow and rapport of the interview):

"Thank you for agreeing to participate in this study. The aim of the study is to learn about how young people do after a burn injury. Your answers will help us understand the experiences of all people with burn injury and I appreciate your willingness to share those experiences. I'll be asking questions about your child's burn injury, his/her health, and other questions about him/her and people around him/her. Some questions ask about what things were like before your child's burn injury, other questions are about his/her health now. I will guide you as we go along. You may notice that some questions are similar and feel repetitive. This is not a mistake and is part of the research process. All information will be kept confidential.

If you are unsure how to answer a question, please give the answer that fits you best. You can choose to skip any questions you don't want to answer or feel uncomfortable answering. Just tell me, "skip." Please let me know at any time if you have any questions."
